

Get your motor running. Head out on the highway. Don't just sit around this summer. Step outside your house, gather some friends, and take a road trip. There's a whole country out there to be seen, you just need to go find it. We've gathered together a little travelogue of some Midwestern attractions to get you started on your trip. It's got everything: shopping, baseball, outdoors, and rock 'n' roll. But you have to find the world's largest ball of twine on your own.
